CIMADENTAL

Dr. Gamborena & Dr. Garcia Baeza have united their expertise in Madrid, blending GAT to CIMADENTAL courses to provide the highest quality education dedicated to excellence in implant esthetic dentistry. This course is designed for professionals eager to enhance their knowledge and skills in esthetic implant practices. The program will cover both surgical and prosthetic aspects of implant dentistry, aiming for high and predictable long-term esthetic results.

Dr. Iñaki Gamborena earned a DDS degree from Universidad Odontologica Dominicana in 1989 and obtained a Certificate in Restorative Dentistry at Universidad Autonoma of Nuevo Leon (Mexico) in 1992. Subsequently, he attended the University of Washington (USA), where he obtained a Certificate in Prosthodontics and Master of Science and was awarded the Bolender Award for clinical and academic excellence in 1996. Then, he completed the Oral & Craniofacial Implant Fellowship Program at the University of Texas at Houston (USA) in 1997. Dr. Gamborena is an Affiliated Professor in the Department of Restorative Dentistry at the University of Washington Dental School (USA) since 2001, an Assistant Professor in the Department of Preventive and Restorative Sciences at the University of Pennsylvania School of Dental Medicine (USA) since 2007, and a Clinical Assistant Professor in the Department of Periodontics at the Medical College of Georgia in Augusta (USA) since 2009.

He is an active member of the European Academy of Esthetic Dentistry since 2002 and of the American Academy of Restorative Dentistry since 2011. He is the Editor-in-Chief of the journal "Quintessence Técnica" and the co-author of the book "EVOLUTION: Contemporary Protocols for Anterior Single Tooth Implants" (Quintessence Publishing), which has been a global success since its original publication in 2014.

Dr. Gamborena maintains a private practice in San Sebastian (Spain) focused on Esthetics, Restorative Dentistry and Implant Therapy, and has traveled the world to share his expertise in numerous dental.

Dr. David García Baeza graduated in Dentistry at the European University of Madrid, UEM 2002.

Certificate in implant and oral rehabilitation. European University of Madrid. UEM 2004/06

Master of Science at Complutense University of Madrid 2005/07

Member of SEPES (Spanish Society of Prosthodontics), SEPA (Spanish Society of Periodontology).

Presently conducts a number of courses in the field of esthetic dentistry throughout Spain.

Author and co-author of some publications in scientific international journals and has given many national and international lectures on esthetic and restorative dentistry.

Maintains private practice in CIMA dental center, Madrid, Spain, dedicated to aesthetics, Restorative dentistry and Implants.

VISION

of the course...

The objective of this 3 days course, is to provide the attendees with a deep theoretical knowledge but more important with a deep hands-on experience on the management of implants in the esthetic zone in order to achieve the best esthetic results. In this course one live surgery will be performed by Dr. Gamborena placing an implant in the esthetic zone either immediate or staged. Attendees will learn to harvest tissue for connective tissue grafts as well as different suturing techniques. A prosthetic and a surgical hands on workshops will be performed by the attendees in order to have a global experience in this type of high advance implant esthetic courses.

Immediate soft tissue support

Our spirit

Integrity

Main quality we try to communicate and teach every body that comes to our courses. Honesty and strong moral principles teaching something that can help the patient and the attendee for the rest of their career.

Leadership

Stimulate and inspire groups of dentists to push the limits of treating patients in daily practice through clinical based live demonstrations.

Entrepreneurial Spirit

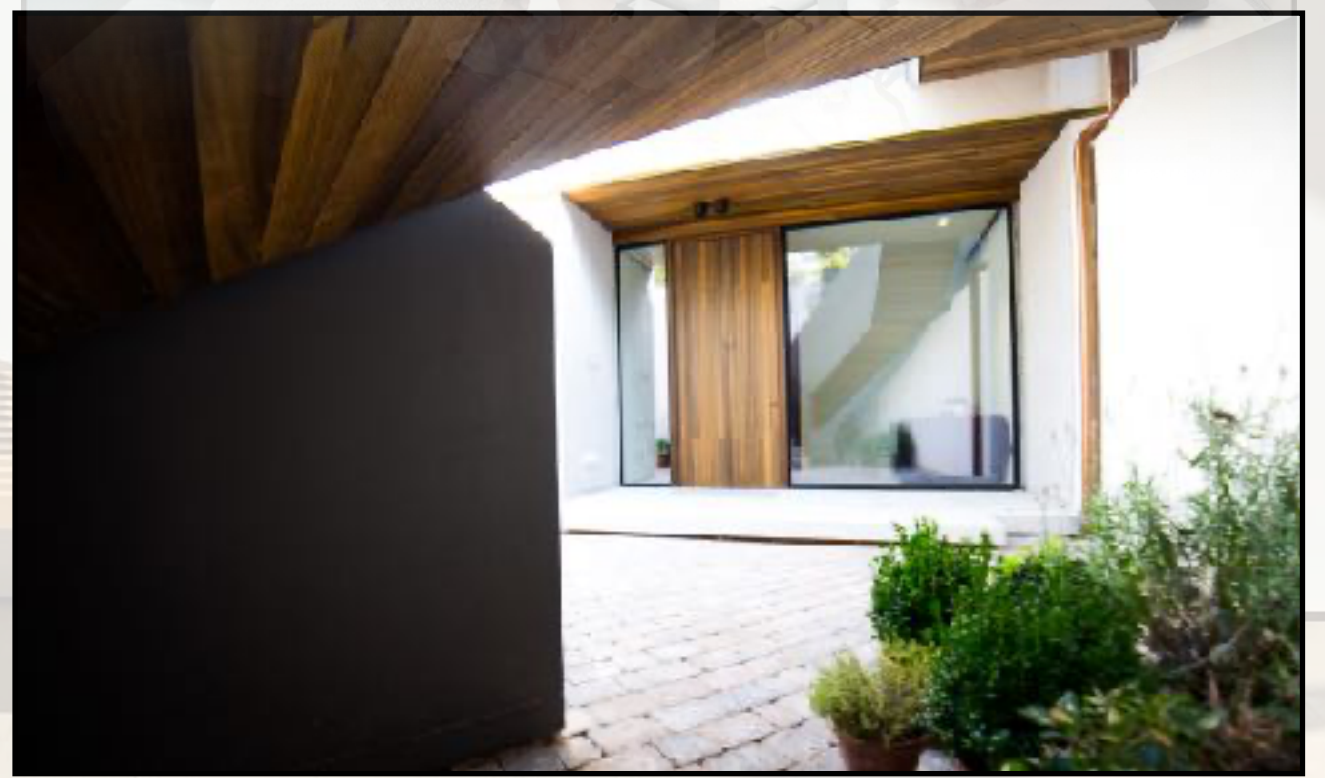

Stimulate progress and concepts treating patients giving birth to the evolution in the execution of our treatments.

CIMADENTAL MADRID

At CIMA Dental, we believe that education is the key to providing the best possible care for patients. That is why we offer a wide variety of training courses for dentists, delivered by top professionals in the field and utilizing the latest techniques and technologies available on the market.

CIMA Dental is a specialized dental clinic and training center, led by Dr. David García Baeza, with the aim of providing education based on the principles of quality and patient well-being.

CIMADENTAL
