VIBE *Concept* Masterclass

Vestibular Incision Bilaminar Elevation. Two days of advanced periodontal plastic surgery with Dr. Bryan Po-Jan Kuo.

THE CONCEPT

Vestibular Incision *Bilaminar Elevation.*

The VIBE Concept is a minimally invasive approach to gingival recession treatment and periodontal plastic surgery, combining vestibular access with bilaminar tissue elevation techniques to maximize root coverage and papilla reconstruction.

It integrates microsurgical management, the PFT tunnel technique, and SCS sutures into a reproducible protocol, designed to resolve complex defects with aesthetic and biological predictability.

This masterclass covers its clinical foundations, surgical variants, and hands-on application on porcine mandible and model, under Dr. Kuo's direct mentorship.

2×

HANDS-ON SESSIONS: PORCINE
MANDIBLE AND VIBE MODEL

THE SPEAKER

Dr. Bryan Po-Jan Kuo

DDS, PhD

An international reference in periodontal plastic surgery and micro-dentistry, Dr. Kuo combines microsurgical precision with a rigorous biological approach to treating complex mucogingival defects.

PhD in Medical Sciences
Taiwan

Specialist in periodontics and implantology

Microscope course instructor
Zimmer Orange

Instructor in periodontal and peri-implant plastic surgeries
Beyond Vision

Micro-dentistry speaker
Zeiss

Specialist in periodontics and implantology, and creator of the VIBE Concept.

PROGRAM · DAY 1

Foundations and *surgical mastery*.

From diagnosis to executing the VIBE Concept on porcine mandible.

09:00 – 10:30

MORNING SESSION I

Foundations & clinical decision-making

- Accurate diagnosis, prognosis, and risk factor mitigation in recession defects
- Evidence-based decision-making criteria and technique selection

10:30 – 11:00

Coffee break — Networking

11:00 – 12:30

MORNING SESSION II

Advanced surgical mastery — VIBE Concept (I)

- Deep dive: PFT tunnel technique & SCS suture innovations
- Surgical nuances, technical secrets, and managing anatomical limitations

12:30 – 13:30

Lunch break — Executive networking

13:30 – 16:30

AFTERNOON SESSION

VIBE Hands-on (I)

- Full surgical practice on porcine mandible, individual station

16:30 – 17:00

CLOSING

Interactive Q&A

PROGRAM · DAY 2

Regeneration and *advanced application.*

Papilla, periodontal regeneration, and hands-on consolidation.

09:00 – 10:30

MORNING SESSION I

Advanced surgical mastery — VIBE Concept (II)

- Applying VIBE principles for papilla reconstruction & augmentation
- VIBE site-specific applications & surgical nuances for root coverage

10:30 – 11:00

Coffee break — Networking

11:00 – 12:30

MORNING SESSION II

Advanced surgical mastery — VIBE Concept (III)

- Biological essentials & key principles for predictable periodontal regeneration
- Synergistic integration: elevating periodontal regeneration with the VIBE Concept

12:30 – 13:30

Lunch break — Executive networking

13:30 – 16:30

AFTERNOON SESSION

VIBE Hands-on (II)

- Full surgical practice on mandible, individual station

16:00 – 17:00

CLOSING

Closing ceremony

WHAT'S INCLUDED

A *complete* workstation, per participant.

01 Complete surgical instruments

Individual set: scalpel, elevator, curette, Castroviejo needle holder, microblade, scissors, and UNC15 periodontal probe.

02 STOMA PFT kit (Kuo micro tunnel kit)

The micro-tunnel kit designed by Dr. Kuo himself, along with 6-0 nylon suture and precision ophthalmic blades.

03 Porcine mandible

Hands-on material for each session, with gingiva and buccal mucosa preserved for realistic simulation.

04 Live projection

Surgical demonstrations broadcast live on dual screens.

05 Small group

Limited seats to ensure Dr. Kuo's direct mentorship at every workstation.

06 Bring your own

Surgical loupes and headlight. All other general clinical instruments are provided at the station.

CLINICAL CASES

The VIBE Concept, *in the mouth.*

A selection of real cases treated by Dr. Kuo with the VIBE Concept: root coverage and papilla reconstruction with aesthetic and biological predictability.

KEY FACTS

The masterclass, in *numbers*.

FORMAT International masterclass 2 days · Theoretical & hands-on	SPEAKER Dr. Bryan Po-Jan Kuo DDS, PhD
VENUE CIMA Dental Academy Madrid	DATE April 2–3, 2027
FORMAT In-person · Small group Individual station	WHO IT'S FOR Periodontists and implantologists with surgical experience
HANDS-ON Porcine mandible + VIBE model	CERTIFICATE CIMA Dental Academy attendance certificate
PRICE €2,200	

VIBE CONCEPT MASTERCLASS · DR. BRYAN PO-JAN KUO

*Microsurgical precision, biological judgment, and
reproducible surgical mastery.*
